

SPINPRO 6-Volt Battery Charger Instructions

IMPORTANT: To be used to charge 6-volt rechargeable batteries **ONLY**. Connect the **RED** lead from the charger to the **(+)** terminal on battery. Connect the **BLACK** lead from the charger to the **(-)** terminal on battery. Plug charger into a properly grounded 120-volt outlet for about 12 hours. Unplug charger, remove the **RED** and **BLACK** leads from the battery.
